IFSAC Fire Officer 1

The purpose of this course is to provide emergency services personnel with basic information necessary to meet the job performance requirements (JPRs) of NFPA 1021 for level I fire officers. The scope of this class is to provide level I fire officer candidates and current fire and emergency services company officers with basic supervisory and managerial knowledge. This knowledge is necessary to develop skills for ensuring safe, effective, and efficient leadership during emergency operations and non-emergency activities, as well as the daily administration within the organization.

Major topics covered in the course are the role of the fire officer, the fire officer's responsibility in facing compliance and accountability, managing cultural diversity, safety and wellness, quality management within the organizational structure, community awareness, public relations, fire safety education, functional leadership, problem solving, performance appraisal, building construction, fire cause determination, effective communication skills, and the incident command system with strategy and tactics.
