By direction of the Board of Fire Commissioners of Fire District 13, we have declared this Water Tender surplus. Any interested person should submit a sealed bid pursuant to RCW 36.34.080, to Clark County Fire District 13. The deadline for bid is 4:00pm Thursday January 30th 2020. All bids must be received by the dead line to be considered.

ITEM: 1983 Western States International Water Tender Fire Apparatus. This truck has 68,738 miles on the chassis per the odometer, but the actual mileage is likely closer to 200,000. The engine was completely rebuilt by Tanninen Repair in Battle Ground Washington in August of 2010, we do have the invoice on record. Very little miles on it since that rebuild. Tank is stamped as 4000 gallons, but was repurposed and cut down to approximately 3000 gallons. Vehicle does not come with emergency lights, unless the purchaser is from another fire agency. Vehicle has normal wear, as to be expected in a vehicle of its age.

* 400 hp Cummins 885 engine  
* Allison Transmission (automatic)  
* 500 gpm PTO pump  
* 3000 gallon tank  
* Height 10’ 2”  
* Weight 45,440  
* Ideal for Type Rural Volunteer Fire Departments  
* Ideal for rural logging outfits or property owners
