Sponsored Training
NATIONAL FIRE ACADEMY OFF-CAMPUS COURSE

Residential Sprinkler Plan Review
September 22-23, 2020

The scope of this two-day course looks at the following as the primary guidance for the approval of residential sprinkler systems:

- Manufacturer's Data Sheets.
- The ability to read and interpret the design is an essential element of preventive fire safety.

This course is appropriate for building and fire code officials whose responsibility it is to review and approve residential sprinkler plans. Such officials include fire inspectors, fire marshals, and building code inspectors with at least one year of experience on the job.

The audience should have an understanding of the history of water-based fire protection systems and methods used to verify hydraulic calculation.
